## Fourth REFORM Newsletter

**Dear readers,**

**Welcome to the fourth issue of our REFORM newsletter!**

After two years of intense cooperation, the REFORM partners are now reaching the end of the first phase of the project. This is the opportunity to inform you about the latest achievements.

Over the last six months, REFORM partners have exchanged their best practices and elaborated their respective action plans. This collaborative work allowed to identify good practices and recommendations for the development of SUMP in regions which could be integrated in the Policy Brief or the Interreg Europe Policy Learning Platform, for the benefits of other regions.

More recently, in early December, the REFORM partners met in Brussels for a policy conference during which the four regions signed a declaration together with the representatives of the European Commission.

Finally, don't miss the fourth and final *Region in the spotlight*. In this issue: Central Macedonia, Greece.

The REFORM partners wish you a good holiday season and an excellent 2019!

Enjoy reading!

## Inspire and get inspired!

REFORM has been successful at exchanging good practices. The activities and processes identified as best practices by each of the four REFORM regions proved to be inspiring for the other three regions when constructing their action plans.

### Meet with our sister projects!

Every 6 months, discover one of our sister projects. This month: [REGIO-MOB](#)

REGIO-MOB's overall objective is to *secure Europe's sustainable growth by promoting sustainable mobility.*

### Upcoming events

**Sustainable Urban Mobility Congress**

European regions face a strong need in increasing the use of sustainable transport modes, in promoting intermodality, technical innovation and the use of cleaner and more efficient systems.

In this context, REGIO-MOB supports regions in undertaking the transition towards low-carbon and resource efficient transport systems in order to increase mobility, remove major barriers and fuel growth and employment.
